- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - Claims 1-32, are drawn to a method for selecting and modifying the shape of eyeglasses, classified in class 382, subclass 154.
 - II. Claims 33-63, are drawn to an apparatus to for its practice, classified in class 705, subclass 27.
- 2. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed can be practiced by hand.
- 3.
